

## **Covid-19 information** (Last update: 11.02.2023)

Since the legal measures to contain the pandemic and the obligation to report infections are no longer in force, all previously applicable Covid-19 safety regulations and the obligation to report have been lifted at the VMI. However, we would like to ask you to continue to observe the general hygiene measures, to look out for symptoms on your own responsibility and to generally stay at home in the event of illness.

### **More information can be found here:**

#### **Hotlines (24/7)**

**1450** – only if there is a suspicion of Covid disease
